FACT-CABLED-MODULES
FACT® CMOD Cabled Modules for FACT NG4 Panels

FACT CMOD Cabled modules with LC connectivity enable the routing of fiber cable to the frame, where multiple connectors are terminated to the frame with a single click in a FACT NG4 tray. Cabled modules with integrated connectors ensure the cables are kept in sequential order and help prevent accidental fiber breakage or disruption to adjacent fibers during installation, enable technicians to route and install higher fiber counts faster and more easily, while simplifying inventory and ordering.

This module also supports connection to top-of-rack systems such as CommScope's Rapid panels or MFPS panel. Available with indoor Micro cable or rollable ribbon, connectorized or stub end

Product Classification

Regional Availability	EMEA | North America
Portfolio	CommScope®
Product Type	Fiber cabled module
Product Brand	FACT®
Product Series	FACT

General Specifications

Body Style	Left orientation | Right orientation
Cable Color	Yellow
Interface, front	LC/APC | LC/UPC | SC/APC | SC/UPC
Interface, rear	LC/APC | LC/UPC | SC/APC | SC/UPC | Stub tail

Optical Specifications

Fiber Mode	Singlemode

Environmental Specifications

Operating Temperature	-5 °C to +40 °C (+23 °F to +104 °F)
Storage Temperature	-40 °C to +70 °C (-40 °F to +158 °F)
Relative Humidity	Up to 85%, non-condensing
